

HOW MANY APPLE SEEDS?

Directions:

- Ahead of time purchase red, green and yellow apples.
- Print up the following sheet.
- Talk to the children about how apples have seeds. In order to grow apples, you need to plant apple seeds that will grow into apple trees.
- Sit with the children and apples you bought, and ask them to guess how many apple seeds are in each apple.
- Write their name and number of seeds they guess for each apple.
- Cut open the apples, and count the seeds.
- Write down the correct number of seeds, and see how well the children guessed.

How Many Apple Seeds?

Guess how many seeds are in each apple.

Name	Red Apples	Green Apples	Yellow Apples
