

# Girls and Boys Graph

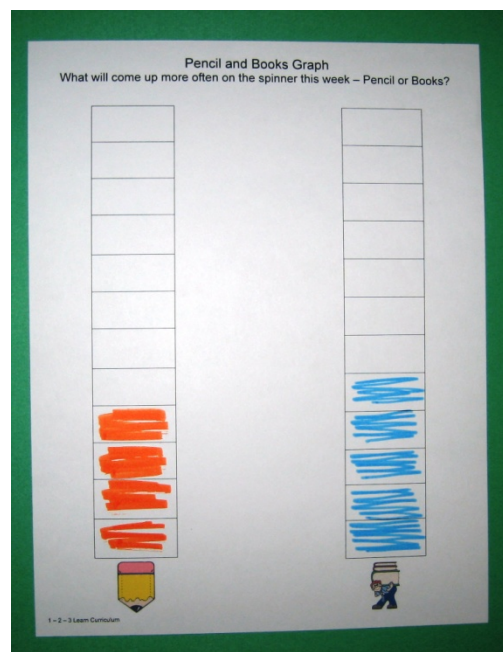

Activity can be done during circle time. Print up the sheets onto white card stock.

The first sheet is the Ice Cream Fun Title.

Trim and place in pocket holder.

Second sheet is the girl and boy graph counting sheet. Each day when you spin the spinner, have one of the children color in one of the squares for either the girl or the boy.

Sheets 5 and 6 are the girl and boy counting cards. After coloring the square on the graph sheet, have another child place either the girl or boy picture card in the pocket chart. See who enjoyed the ice cream more during the week with this fun graphing tool. On Friday have a real treat of ice cream that everyone can enjoy!

Print up spinner and trim.  
Laminate if desired.  
(Example not laminated).

Notes: Pocket chart purchased at Lakeshore Learning  
[www.lakeshorelearning.com/](http://www.lakeshorelearning.com/)

### Magnetic Small Pocket Chart

- 26" x 27" nylon pocket chart
- Hangs with magnetic strip or grommets
