## Vote For Your Favorite Dinosaur

I am the fiercest of all dinosaurs! I am Tyrannosaurus. I weighted eight tons, and I was 2 stories tall. My long, strong tail could knock down a tree.

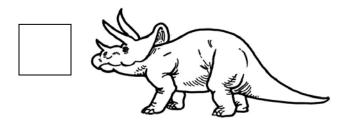

I am Ankylosaurus. I looked like a tank. We weren't very big but the others ignored us. We had a lot of plates on us. My tail was a very dangerous weapon.

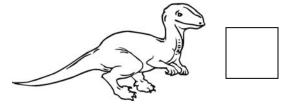

I am Brontosaurus.! I was one of the largest land animals that ever existed. The dinosaur Brontosaurus is now called Apatosaurus.

I am Triceratops, the best of all. My skull was longer than you are tall. I couldn't move fast, but I was very strong, and my horns were almost three feet long.

I am a Iguanodon. Here's what I could do. I could walk on four legs, or walk on two. In a squishy swamp, four are best I have found, but I walked on two when I was on dry land.

I'm a Stegosaurus with spikes on my tail. They were two feet long and sharp as a nail. These plates kept enemies off my back.
